Gordon Steves, Prop. Phone 110 Blairmore, Alberta

Mrs. (Rev.) Neville Blunt, of In-
nisfail, last week received word of
the death of her mother, Mrs. Paget,
at Cranbrook.

D. F. Christie, of Calgary, has been
elected grand master of the Alberta
Grand Lodge of the Independent
Order of Oddfellows.

Town of Blairmore

TO WATER CONSUMERS

Please be advised that, owing to lack of water
from the reservoir, river water is now being pump-
ed into the distribution system. It is recommended
that water for domestic use be boiled.

CHAIRMAN OF WATERWORKS.

The Bassano fish and game associa-
tion expect to have the district
waters stocked with black bass and
trout, also to secure an instalment of
Chinese pheasants.

The city of Drumheller was refus-
ed a loan of \$75,000 by the Royal
Bank, and the amount has been ar-
ranged for with the Bank of Montreal
in Calgary.

BLAIRMORE BEARCATS GOING STRONG

Having subdued such pecks as the
bulldogs, tigers and hereforas, the
Blairmore Bearcats have elected to
play Gleichen in the semi-finals for
the provincial intermediate champion-
ship. Following a defeat at Okotoks
of 2 to 1, the Bearcats entertained the
oil-town team here to the tune of
eight to two, making the series' score
9-4.

On one of the finest sheets of ice
seen this season, the Hereforas were
outclassed in all stages of Monday's
tilt, and fans were treated to a splen-
did exhibition of the game.

Barbour, who had the game well in
hand all through, found only four
penalties necessary, and these were
equally distributed.

Blairmore will play at Gleichen to-
night, and the second game will be
staged at the Blairmore arena on Sat-
urday night, starting at 9 o'clock.

The winners of this series will meet
Lacombe, winners of the north, for
the provincial intermediate title, qual-
ifying to contest provincial honors
against the seniors. We understand
that the dates for these final games
have been set by the A.A.H.A. for
March 2nd and 4th, the winners enter-
taining Lacombe for the first game,
the final game on Lacombe ice, and
as games are under direction of the
association the minimum prices will
be 50 cents and 25 cents, all rush
seats.

BLAIRMORE PUBLIC LIBRARY

New books placed on shelves this
week are:

Non-Fiction—"The Art of the Pit-
ti Palace," by De Wolf Addison; "The
Art of the Uffizi Palace and the Flo-
rence Academy," by Charles C. Hoyt;
"Problems of International Settle-
ment" and "Science from an Easy
Chair," by Sir Roy Lankester.

Fiction—"Barbarys The Magnif-
cent," by Rafael Sabatini; "Myster-
ious Mr. Sabin," by Oppenheim.

Junior Fiction—"Camp Fire Girls
Mountaineering," by Benson; "Camp
Fire Girls Lake Camp," by Benson;
"Ruth Fielding on Cliff Island," by
Emerson.

We acknowledge a gift of six books
from Miss Irene Chappell. Library
hours are: Tuesdays, Thursdays
and Saturdays from 7 to 9 p.m.

WESTERN COAL OPERATORS CONFER WITH MINES MINISTER

Only a brief memorandum was
forthcoming from the conference held
in Ottawa on February the 12th, be-
tween Hon. Wesley A. Gordon, min-
ister of immigration and mines, re-
presentatives of the transportation
companies and the operators of west-
ern Canada. That memorandum merely
announced that additional facts
and figures bearing on the possibility
of extending the use of western coal
further east would be presented by
the Dominion fuel board. The con-
ference sat for three hours behind
closed doors. The memorandum fol-
lows:

"At a meeting held in the office of
Hon. Wesley A. Gordon, at which were
present Sir Henry Thornton, presi-
dent of the Canadian National Rail-
ways; E. W. Beatty, K.C., president
of the Canadian Pacific Railway;
Grant Hall, vice-president of the same
company; Dr. Charles Cansell, deputy
Minister of Mines; coal operators and
their legal representative, Arthur I.
Smith, K.C., of Calgary, the question
of extending the use of Western Can-
ada coal was gone into. A very com-
plete review of the subject was pre-
sented by Mr. Smith. The Dominion
Fuel Board and the two railway com-
panies will submit in amplification of
the brief presented by Mr. Smith the
facts and figures in their possession
that have a bearing on the possibility
of the extension of Western Canada
coal farther East."

SHIELD TO BE PRESENTED HERE TOMORROW NIGHT

We are asked to announce that the
Strathcona Trust Physical Training
Shield No. 25, which was won by the
Blairmore school, will be formally
presented at a meeting to be held in
the West Ward school tomorrow
afternoon at 3.30, when His Worship
Mayor Farmer will officiate. Present
will be the members of the town coun-
cil and school board, and parents of
pupils attending the schools are cordi-
ally invited to attend.

School Board Member C. J. Tomp-
kins will give an address on the his-
tory of the shield.

Coupled with the winning of this
shield is the scholarship awarded Miss
Sarah McVey, one of the teachers.

BLAIRMORE CHILD SUFFERS SEVERE EYE INJURY

While enroute, by motor to Leth-
bridge on Sunday last, Ronald, six-
year-old son of Mr. and Mrs. Ed. Mc-
Donald, sustained an injury to an eye
which may result in the complete loss
of sight in that membrane. A stone
from a passing car hit the windshield
immediately in front of the child, and
a splinter of glass entered the child's
eye, cutting the pupil. The little lad
was rushed to St. Michael's hospital
at Lethbridge, where all possible is
being done to relieve his suffering and
save the eye.

Mrs. McDonald is remaining in the
city, while her husband and daughter
Leona returned to Blairmore on Mon-
day.

REMAINS OF A. J. CROSS ARE LAID TO REST

The jury enquiring into the cause
of death of Albert John Cross, who
met death in the Byron Creek mine
on Tuesday last week, on Thursday
last returned a verdict that death
was due to an accident, and that the
mine crew were cleared of all blame
in connection with same. The jury
was composed of H. Stobbs (fore-
man), E. Cressman, P. McNeill, R.
Fletcher, H. Orr and D. Coupland,
with F. J. Turner, of Bellevue, as
coroner.

Witnesses examined were: Dr. G.
B. Rose, W. Hutchinson, G. Watkins,
J. Watson, W. Evans, J. Panek, G.
Ralph, Ernie Fisher and J. Mackie.
The late Albert Cross was born at
Pontypool, Monmouthshire, on Sep-
tember 20, 1891, and came to Canada
nearly three years ago, since which
time he had been employed with the
Hillcrest Collieries. He was a mem-
ber of the Territorials and joined the
Second Monmouthshire regiment in
1914, serving on the various fronts
with his regiment until the Armis-
tice in 1918, when he was discharged
with rank of sergeant.

He was a man of exceptionally fine
character, beloved by all with whom
he came in contact. Recently he be-
came connected with Turtle Mountain
Lodge of the Knights of Pythias, and
during the ritualistic ceremonies a
number of members of the order from
Coleman and Blairmore took an ac-
tive part and were pleased to have
made his acquaintance. He is sur-
vived by his wife and one child,
Erenda, of eleven years, with whom
heartfelt sympathy is extended.

Funeral took place on Saturday
afternoon, following a very impres-
sive service held in the K. P. hall. In
addition to the beautiful service of
the Knights of Pythias, that of the
United church was conducted by Rev.
John Wood, who followed with a brief
address. The Hillcrest Male Voice
Choir, most of whom were close
friends and associates of the de-
ceased, was present and sang a number
of choruses as well as leading in the
singing of hymns. Fully one thou-
sand followed the remains to the
graveyard, where the final tribute and
last rites were administered.

A Story of Fifty Years

Montreal, February 16.—Fifty years ago today incorporation of the Canadian Pacific Railway took place. George Stephen, afterwards Lord Mount Stephen, was the company's first president. The company deposited with the Dominion Government, at Ottawa, a cheque for \$1,000,000 as a guarantee that it would fulfill its contract to complete the railway to the Pacific Coast. This pledge was completed in five years instead of the ten the contract called for.

This brief but significant news despatch appeared in the daily newspapers of Canada on February 16 last. It recalls an historic incident, a milestone in the history not only of Canada but of the world, for it not only carries the mind back, but because of all that backward glance discloses, it inevitably forces the mind forward to a contemplation of what the next fifty years may unfold. It impresses one with the tremendous developments and possibilities of a span of only fifty years.

Fifty years ago the project of a transcontinental railway across Canada was viewed with scepticism by thousands in Canada, and was regarded as the maddest kind of a venture in Great Britain. Men prominent in public affairs declared it would never earn its axle grease. The country it was to traverse was described as a wilderness, partly desert, incapable of successful cultivation and settlement by white men, followed by miles of snow capped mountain peaks and ranges.

That success rather than failure followed the great undertaking can be credited to a few stout-hearted, far-seeing men who were veritable giants in energy, resource, and grim, unshakable determination. In some respects they were ruthless; their methods were not always above suspicion, but they had a vision, and a driving force to achieve their goal regardless of any and all obstacles. Individually they staked their all on the success of the enterprise, obliterated the word "failure" from their lexicon, and won. Canada, the world, knows the result.

The railway made a new nation. It opened up an empire. It altered the trade routes of the world. It brought the Orient to the Occident, and the Occident to the Orient. The enterprise initiated fifty years ago by a new-born Dominion of a few millions of people, has amazed the world. It has become the greatest transportation system in the world, with its fixed bands of steel not only crisscrossing and criss-crossing Canada, and extending well into the United States, but with its vessels navigating the seven seas, calling at the ports of all nations, and circumnavigating the globe.

The Canadian Pacific Railway has helped to make Canada what it is. It has made and unmade Canadian Governments. The history of the Canadian Pacific is in part the history of modern Canada. The success of the railway has been bound up in the development, the prosperity, the success of this Dominion. The management of the railway always recognized that fact, and it has been pro-Canadian at all times and in all its policies. It has made mistakes, of course; it has been selfish, even dictatorial at times, but it has always been magnificent.

The Canadian Pacific has been created and developed under the presidency of four men, Sir George Stephen (later Lord Mount Stephen), Sir William Van Horne, Sir Thomas (later Lord) Shaughnessy, and Mr. Edward W. Beatty. The history of the railway may likewise be divided into five periods, or possibly three as the first two merge into one. First the period of organization of the company, early financing, and actual construction under Stephen and Van Horne; second, the period of well organized, highly efficient operation under Shaughnessy, with well defined policies of branch line construction as feeders, opening new territory, and the establishment of mercantile fleets and overseas services; third, and coupled with the vigorous continuation of the Shaughnessy policies, what may be termed, in the absence of a better word, the diplomatic period under Beatty wherein up-to-date railroadage has been strengthened by securing the goodwill, the admiration, the co-operation of the public generally, and the elimination of those feelings of suspicion and antagonism which undoubtedly marked the relations of the people and the railway in the earlier years.

And in the story of these fifty years there is not a lesson and an inspiration for the people of Canada? The railway had its periods of difficulty and depression, just as individuals and nations experience them, but it surmounted them. The makers of the Canadian Pacific did not shorten their vision to a year or two, or five or ten years; they looked into the future and planned and built with courage and confidence. They have had their reward. So, too, should the Canadian people maintain the forward look, act with courage and decision, remain confident. Canada has done great things in the past; it can do greater things in the years to come.

A New Floor Covering

"Saffoleum," derived from a plant resembling a sunflower, may some day take its place on floors as a rival to linoleum, if experiments now being conducted by the United States Department of Agriculture are commercially successful.

Invents "Moon" Rocket

Frank Polikan, an electrician from the town of Upeast, says he has built a rocket with electro-magnetic propulsion which "ought to be able to reach the moon in three weeks." He has offered it to the Junkers Aeroplane people.

When Food SOURS

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

remained the standard with physicians for more than 50 years. It is the "quick method." Results come almost instantly. It is the approved method. You will never use another when you know. Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for over fifty years in correcting excess acids. 500 bottles — any drugstore. — The genuine is always a liquid — it is never made in tablet form. So look for the name Phillips' on wrapper and bottle.

A Scientific Mystery

Source Of Cosmic Rays Has Not Been Discovered

Discovery of cosmic rays in sunshine—the same rays that penetrate about 700 feet into earth—is described in address received at New York from Vienna.

The communication is from Prof. E. Spath, president of the Chemical and Physical Society, and is sent to clear a misunderstanding about the report made recently to the society of Prof. Victor F. Hess, of the University of Graz.

Vienna despatches had it that Professor Hess announced the discovery of cosmic rays and that his talk created a sensation among scientists.

But Prof. Spath points out that Dr. Hess did not claim to have discovered cosmic rays, which were found 18 years ago, but that he had evidence that a small percentage of these rays came from the sun.

Their origin has been one of the great scientific mysteries. The fact that most electrosopes used to detect them showed as many at night as in the day was held by some scientists to eliminate the sun as a source.

BREAKS UP GAS IN THE STOMACH

Don't suffer from dangerous gas pressing around your heart, from sourness, acidity, flatulence or pain of indigestion. Stop worrying. Whenever you need quick stomach relief, take a little Bismuth Magnesia powder or tablet. It breaks up gas, neutralizes acids and keeps the stomach sweet and strong in digestion perfect. At all good drug stores.

Honored By Italy

F. C. Elford Appointed Member Of Executive For Fifth World's Poultry Congress

F. C. Elford, Dominion Poultry Husbandman and Past President of the World's Poultry Science Association, under whose auspices the World's Poultry Congresses are held, has been signally honored by the government of Italy, who appointed him a member of the executive for the Fifth World's Poultry Congress which meets in Rome in 1933. Mr. Elford has also been asked to take charge of organization of the Canadian delegation to Rome. From present indications the next Congress will fully equal the success of last year at London, England.

One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the intestine system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach, and directions are followed, and they are given to children in the full assurance that they will utterly destroy all worms.

American Films In Britain

Eighty-Five Per Cent. Of Motion Picture Films Shown In England Are Of American Origin

Eighty-five per cent. of the motion picture films shown in England are of American origin, and only 7 1/2 per cent. are British, Colonel John A. Cooper, president of the Motion Picture Distributors of Canada, testified before the investigation into affairs of the motion picture industry in Canada at Toronto. Investigation is centered around affairs of the Famous Players-Lasker Corporation and its subsidiary companies.

Only about 30 Canadian pictures had been made since 1918, Col. Cooper stated.

Protect the child from the ravages of worms by using Mother Graves Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

Looking For Samples

A Scot received a complimentary ticket to the motor show. Stopping in front of a magnificent limousine, he casually inquired the price. It was \$9,000. Sandy shuddered and moved on. The next car he came to was \$6,500; he passed on and saw cars priced at \$2,000, \$1,000, \$750 and \$500. At the end of the row were a few of the "baby" type. Sandy looked at the salesman hopefully. "Are these your free samples?" he asked.

It may be mixing metaphors, but the man who puts his shoulder to the wheel seldom has to put his nose to the grindstone.

It takes just 365 days for a new year to change from a sort of Cupid to an old man with a scythe over his shoulder.

A white otter was recently trapped in New Brunswick.

W. N. U. 1978

Links With The Past

Scientists Constantly Learning New Facts About Climate and Vegetation

Buried forests, the vestiges of past ages, come to light now and then to reveal new facts to the scientist about climate and vegetation. Trees which are known to exist today only in tropical climates have been found beneath the surface in temperate or Arctic sections, indicating that a climate suitable for their growth existed in those regions at one time.

Tree fossils have been found in Antarctica, for example, and their discovery indicates that the Antarctic Continent, now in its ice age, possessed a temperate climate in remote ages. Possibly it once supported a varied plant and animal fauna.

A recent discovery of similar significance was made in Northern Alberta, where a government engineer of the Canadian Department of Mines came upon several fossil trees. Their age was estimated at between 15,000,000 and 20,000,000 years. The real importance of the discovery, however, lay in the fact that at least one of the trees is of a type that grows today in Japan, according to Dr. I. W. Bailey of Harvard University. This is considered evidence that North America and Asia were at one time joined.

One feature of the discovery in Alberta was the fact that the trees were in a state of perfect preservation. The growth rings could be counted, the leaves were in fair condition and the wood could be cut with a jack-knife. It seldom happens that plant or animal fossils are found so well preserved.

In most cases the soft parts decay very rapidly, before a protective layer of sand or clay can fall over them, and the hard parts are changed chemically. In Alberta it is frequently found that the material of the bones has been replaced by silica or some other mineral.

Persian Balm—There is nothing like it for creating and preserving a lovely complexion. Cooling, caressing—it soothes and dispels all roughness and chafe caused by weather conditions. Delicately fragrant, it adds exquisite charm to the most finished appearance. Dressing women, inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose-like in tint and makes it soft and supple and whiten the hands. Truly a peerless toilet requisite for every woman.

Leprosy Being Cured

Eleven Patients Recently Released From U.S. Institution

Quietly, as ships long docked slip into a strange sea, so men and women have left the government leprosyarium at Carville, Louisiana, to face a world which some of them have not seen for two decades.

Each carried a treasure which money could not buy—a certificate attesting they have been cured of leprosy, a disease dreaded and shunned since Biblical times.

Some will take new names and make new lives — the government will ask no questions. Their departure — brightening the hope of 800 leprosy patients — will bring the total number to be released in the last few years to 63.

For Catarrh.—It is one of the chief troubles of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

The Family Doctor

The family doctor is coming back, says a physician who has been making a national survey of the medical situation. He has been ignored lately in favor of specialists on one hand and self-doctors on the other. — Brockton, Mass., Times.

Telephones In Canada

The estimated number of conversations by telephone in Canada during 1929 was 2,525,500,000, including 37,851,000 long distance calls. For every 100 of the population in that year there was an average of 15 telephones.

Four-fifths of the automobiles owned in Brazil were bought on time.

Soviet Plan a Failure

Engineer Says Five-Year Idea Has Entirely Collapsed

Philip Hartly and Mrs. Hartly, of Newark, N.J., stepped down the gang-plank of the liner New York and heaved hearty sighs of relief. They were back where shoes cost less than \$20 a pair, and butter not quite \$8 a pound. They had come back from Russia.

Hartly, mechanical engineer, who went to Russia last August to investigate rolling mills in Siberia, had much to say, and little of it was complimentary to the Soviet or the so-called five-year plan of social and industrial rehabilitation. "The five-year plan is not collapsing," Hartly remarked. "It has collapsed. The people are in a rage. There is depression everywhere."

To Test Hudson Bay Route

Would Increase Initial Grain Movement To Not Less Than 5,000,000 Bushels

Asking that Federal Government through Hon. Dr. R. J. Manion, Minister of Railways and Canals, give due consideration to the advisability of increasing the initial grain movement to not less than 5,000,000 bushels in order to adequately demonstrate the Hudson Bay route as a "valuable and necessary trade outlet for export farm products," the Saskatchewan traffic council unanimously passed a resolution to that effect.

London school children collected 6,856 pounds of tinfol, worth \$1,625, for a hospital last year.

Cancer Research

Ontario To Supply Free Treatment

Within the next two months, possibly before the present legislature prorogues, the Ontario cabinet will make public the nature of the investigation into the cancer question to which it has committed itself. The cancer treatment, whatever it may be and whenever adopted, will be supplied free to sufferers, Premier George S. Henry stated.

Ontario led the way in the distribution of free insulin for diabetes treatment. It followed this with the manufacture of a free serum for combating infantile paralysis, and several other treatments for diseases are also available to the general public at cost. Now the government will make available, free, the cancer treatment that will eventually be adopted.

Should the government decide on investigation by commission, it will have, it is believed, the assistance of the Ontario Research foundation. At the present time the foundation is understood to be making further investigation into the value of radium ore from Halliburton township.

That he had been unemployed for nine years was the excuse given recently by a Southern, England, man when summoned for not paying his taxes.

More than 21,000 cafes serving foreign foods have been opened in Japan.

Smothering and Fainting Spalls

Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes: "I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped so many people and decided I would give them a trial. I used four boxes and found they help me wonderfully."

WHEAT EXPORTS ARE SHOWING STRONGER TONE

Ottawa, Ont.—Canada's export of wheat during the present crop year, January 31, has exceeded the corresponding period last year by nearly 60,000,000 bushels, stated a report on the wheat situation issued by the Dominion Bureau of Statistics recently. The review of the world situation indicates a favorable outlook for a steady demand for Canadian wheat for mixing purposes.

Lower shipments of wheat during the month of January from North America and Soviet Russia were offset by larger clearances from Australia and Argentina. Increased competition, especially that of countries ex-Europe, has surprised the authorities and Broomhall's world shipments for the crop year up to January 30, are almost 70,000,000 bushels in excess of last year. Stocks of wheat in European and United Kingdom ports generally declined during January. Imports of wheat into the United Kingdom also showed a continuous decrease, but there was a revival of demand from Italy, France, Holland and Belgium. "The demand for Canadian wheat abroad," says the report dealing with the month of January, "has held fairly steady, but there has been the usual seasonal decline, which shows signs of going even further in the present short month. Although retained in January, competition from Russia and the southern hemisphere is now growing, and prices for Canadian wheats have registered a greater relative advance in February than prices in other markets."

"Canadian grain is held in stronger hands, and there are indications that financial and economic conditions in our three rival wheat-exporting countries are encouraging sales commensurate to liquidation. However, the surplus wheat of the southern hemisphere reaching the European market will induce a steady demand for Canadian wheat for mixing purposes. "Argentina normally competes directly with Canadian wheat in kind and quality, while the soft Australian wheat is rather complementary. The Argentine carry-over and the new crop are damaged by weight and quality by rust, weathering, and the stronger, heavier grades of Canadian wheat will be needed for mixing. Australian new wheat is also light and weathered, but its cheapness and type are attractive to the Orient. India, Milling regulations, high tariffs and quota systems extant in Europe also encourage the use of high-quality Canadian wheat in preference to the weaker grades commonly produced in other countries."

Killed In Plane Crash

Inventor Of Mystery Craft Meets Death In Own Machine

Roosevelt Field, N.Y.—Emory Davis, inventor of a mystery plane, took his ship into the air for the first time and was killed when it crashed. Carl Nelson, his co-pilot, was slightly injured.

The craft, a tandem monoplane with an odd, square-shaped fuselage and front and rear wings of equal length, was being towed by an automobile when it nose-dived to the earth. Davis, a man of 50 who turned up here a couple of years ago and refused to tell anyone the details of the airplane innovation he was tinkering with, was instantly killed. He was said to have spent \$100,000 on the ship.

Aid For Unemployed

More Than \$15,000,000 Has Been Spent In Ontario

Toronto, Ont.—More than \$15,000,000 has been spent in the province of Ontario in providing employment and relief since the Dominion Unemployment Relief Act came into force, and 43,000 men were given employment up to the end of January, Premier George S. Henry told the legislature in moving "second reading" of his Unemployment Relief bill.

At a brief sitting the House approved the bill, which authorizes the expenditure of \$4,000,000 by the province on unemployment relief and validates certain debentures floated by municipalities to finance their share of the relief programme.

W. N. U. 1978

Federal Radio Rights

Rights Of Dominion and Provinces To Be Referred To Supreme Court

Ottawa, Ont.—The respective rights of the Dominion and the provinces on radio broadcasting will be the subject of a reference to the Supreme Court of Canada. It was officially stated recently. Preparation of the questions to be contained in the reference is under way.

No decision has been made by the Dominion Government as to whether or not it will be represented at the hearings being initiated in the Quebec courts by the Tacheureau government on radio broadcasting. It is quite possible that the Dominion will not be represented at the proceedings started by the Quebec government, but will proceed to bring its own reference before the courts.

From all indications the matter of introducing legislation at the coming session of parliament will be dependent on the date on which the proposed Dominion reference is argued before the courts and a decision has been rendered. The probability, however, at the moment is that the judgment of the court may not be secured in time to bring down legislation next session.

The whole subject of radio broadcasting, involving the question of nationalization, has been under government consideration. Premier Tacheureau of Quebec, though, raised the question of Dominion control within that province; and, early this month the Quebec premier announced that his government was submitting a series of questions to the superior court of Quebec. The controversy over Dominion and provincial control has recently been the subject of public utterances by Mr. Tacheureau and members of the Dominion government.

New Ministry For Spain

New Regime Expected To Restore Legal and Political Stability

Madrid, Spain—Spain now has a new government, peace is restored, and is looking forward to at least a period of calm after the political turmoil of the last few days.

Admiral Juan Bautista Aznar, staunch Royalist and political neutral, headed the ministry formed by King Alfonso in a successful effort to head off another military dictatorship like that of Miguel Primo de Rivera. The King called for no participation on the part of Left, Socialist and Republican elements, and their attitude remained problematic. The public generally, however, seemed to be waiting quietly until the program and policies of the new government could be formulated and put into effect.

The cabinet that replaces that of Damazo Berenguer, which resigned because of widespread opposition to Premier Berenguer's plans for parliamentary elections in March, includes Berenguer himself, and the Count of Romanones and the Marquis de Albuera, the men most responsible for his overthrow.

It is formed of Right Monarchists with Liberal, Conservative and Catalan Independents' party representation, and according to its chief, the heart of the program will be the restoration of legal and political stability.

School Act Amendment

Use Of French Language For First Year In Saskatchewan Public Schools To Be Abolished

Moos Jaw, Sask.—A School Act amendment which will abolish the use of the French language in public schools will be brought down before the present session of the legislature. Premier Anderson announced before the Saskatchewan School Trustees' convention.

It had been the practice, he said, as minister of education, to allow a French child in the province of Saskatchewan to receive instruction in the schools during the first year in French, and this meant that at the end of 10 months a child might know no English. This innovation, he planned, he said, not because he did not respect the French or their culture, but because the system as at present was not pedagogically sound.

No Secession Movement

Toronto, Ont.—"There is no secession movement in Western Canada," said F. W. Turnbull, M.P., Regina, in the course of an interview here. What you hear about is merely the agitation of a very small few, noisy individuals anxious to attract attention to themselves and succeeded in attracting that attention by exaggerating what they are. The West pays no real attention to them."

Grain Growing Countries May Hold Conference

Might Be Advantageous Says Retiring Chairman Of U.S. Farm Loans Board

Ottawa, Ontario.—Representations have been made to the Dominion Government, it was stated here, that a conference be held in which Russia, Australia, Argentina and Canada would participate to discuss the wheat situation. It is understood that so far the government does not take kindly to such a conference.

Despatches from Washington quote Alexander Legge, retiring chairman of the United States Farm Loan Board, as stating a conference of wheat producing countries might be advantageous. It might disclose to Russia's part a readiness to agree to more orderly marketing that would give better prices to all producing countries.

RELIEF PAYMENTS TO PENSIONERS WILL CONTINUE

Ottawa, Ont.—Relief payments to pensioners will be continued by the Dominion Government at the same rate as heretofore. Official announcement to this effect by Premier R. B. Bennett will be received with widespread approval by pensioners affected throughout the Dominion.

"Payments already made for relief purposes to pensioners had exhausted the appropriation by parliament," the prime minister declared, "and, in addition, a substantial sum secured through government-general's warrants. The law provides that government-general's warrants can only be issued in cases of urgent necessity."

"The minister of pensions and national health has been investigating the situation and, being now satisfied of the great urgency of the case, an additional warrant has been issued by the administration that relief payments to pensioners will be continued at the same rate as heretofore. There was no desire, much less intention to cause hardship to those who had been receiving relief."

Schedule of monthly allowances for unemployed pensioners, which Premier Bennett announced will be continued, is as follows: Single men, \$30; married men with no child, \$45; married men with one child, \$57; married men with two or more children \$67.

Maximum of pension obtainable for unemployed pensioners has been \$67 monthly. From this amount is deducted the pension the man was receiving and the difference is paid in the form of a voucher to be used in the purchase of the necessities of life.

The Sunshine City

Calgary, Alberta.—Calgary claims the undisputed title of the sunshine city of Canada, as a result of the monthly report of the Dominion meteorological service for January. During that month this city enjoyed 138 hours of sunshine. The nearest figure to this was St. John with a total of 131 hours. Fredericton was third with 129 hours, while a few cities, particularly in the prairie provinces and Quebec, averaged between 110 and 115 hours.

SPEED KING IS KNIGHTED

Captain Malcolm Campbell, who returned home recently after establishing a new automobile speed record in the United States, has been knighted by the King.

FOR REVISION OF WAR DEBTS

Sir Thomas White, former finance minister of Canada, who proposes a convention of all interested nations and a renunciation or revision of all war debts.

Duty Is Remitted

Old Clothes From England For Saskatchewan Farmers Escape Duty Payment

Ottawa, Ont.—Northern Saskatchewan farmers have applied to relatives in the Old Country for old clothes. The appeal having been heard the customs officials in Canada, however, have been holding up the shipments for payment of duty of 25 per cent. In some cases the officials made the duty higher than the value of the clothing in London.

A farmer at Clondanville, north of Lloydminster, has appealed to Ottawa, claiming the farmers were penniless and too poor just now to pay even the duty on secondhand clothing. It has been ascertained that there is a clause in the Customs Act providing for the remission of duties on secondhand clothing when an affidavit is made that the recipients were not in a position to pay. Customs officials at Lloydminster, where the clothing has been held up, have been notified of the regulation and ordered to deliver the clothing on receipt of the affidavits.

Asking Amendments

To Criminal Code

Several Changes Requested By Chief Constables' Association

Winnipeg, Manitoba.—Numerous change additions and amendments to the Criminal Code of Canada were asked when the legislative committee of the Chief Constables' Association met the minister of justice and other law enforcement officials at Ottawa.

Chief of Police H. S. Newton, of Winnipeg, who is secretary of the association, attended.

The legislative committee urged the use of telegraphic warrants, amendments to the Vagrancy Act, and discussed deportation of undesirable and problems of handling unlawful gatherings.

Higher Duty On Beans

Ottawa, Ont.—Exercising power delegated to him at the last session of Parliament, Hon. E. B. Ryckman, Minister of National Revenue, has set a value of three and a half cents a pound for duty purposes on dried beans. This would not apply to imports under the British preference, the departmental order specifying that it had to do with the intermediate and general tariff.

Questions Cost Money

Many Queries Regarding Russia Come Up In British Parliament

London, England.—"Out of 1,650 questions addressed to me since I took office, 562 or approximately one-third, have related to Soviet Russia," said Rt. Hon. Arthur Henderson, secretary for foreign affairs, in reply to a question from Miss Ellen Wilkinson, Labor, East Middlesbrough, in parliament.

The foreign secretary said he was unable to give any estimate of the cost of ascertaining the information that had been given, but the cost of issuing three official statements on Soviet legislation, religion, and labor was about \$700.

Miss Wilkinson quoted the estimate of a member of the previous Conservative government, that averting the cost of sustaining a reply to an official question was \$10, and suggested the opposition might make a move in the direction of national economy in this respect.

PRAIRIE ISSUES TO LOOM LARGE IN PARLIAMENT

Ottawa, Ont.—Questions affecting the grain-growing districts of western Canada will loom large in the coming session of parliament which opens March 12. Western members are beginning to arrive in Ottawa. They prophesy a very spirited debate and that prairie members will take a considerable part in it. They see no probability of the debate on the address in reply to the Speech from the Throne being wound up in a day, as has been the practice in recent sessions.

"Behind the arguments for emergency relief, such as criticism of the credit policies of the banks in relation to the needs of western Canada, special freight rates, in view of the low price of wheat, and suggestions for bonuses on wheat, is the fundamental question of how to carry on in the future, in the opinion of the westerners. Can Canada successfully raise wheat in competition with the Russian five-year plan of big publicly managed farms?"

"I see no reason why Russia will not be able to carry out its five-year project," said Hon. W. R. Motherwell, former minister of agriculture, one of the early arrivals. "The Russian people are deeply in earnest about this and are willing to wear their knuckles bare to see it through. I can see no silver lining to the cloud. Whether the efficiency they are showing in their five-year wheat growing plan can be kept up indefinitely is doubtful. I have had some pretty direct information from Russia, however, and I am convinced they will put through the five-year plan."

"We have come out of every other depression and no doubt we will come out of this one," Mr. Motherwell added, but he could not see just how. "Of course it is up to the government," he declared, "to propose a good show in a new doctor last July."

Many westerners have expressed the opinion that if Canada is successfully to compete with Russia in wheat growing, it will have to be by big farms, privately owned. H. E. Spencer, United Farmers of Alberta member for Battle River, who was in Ottawa this week, expressed the view that the day of the small farmer in the West would soon be over. He forecast an active session, with the U.F.A. group leading a vigorous attack on the government. He emphasized that large sections of the west were not suitable for livestock.

Mr. Motherwell, on the other hand, thought the small farmer would stand a good show in the future. "Large farms have not been a great success as a rule in the West," he said. "The alternative plan of a number of farmers co-operating in the ownership of combines and their expensive farm machinery has never been a success. Friction always develops. In fact you cannot standardize the size of farms any more than you can standardize the capacity of men to manage them. Some men have only the capacity to manage small farms and some make a success of 50,000-bushel farms."

"The West will have to go on raising wheat and take its chances," Mr. Motherwell continued. "You cannot close up a farm like a theatre. Some crops have to be found. This should be an interesting session of parliament."

DISCOUNT IS SET ON U. S. AUTOS NOW IMPORTED

Ottawa, Ont.—Fixed discount of 20 per cent. from list prices has been placed for duty purposes on all United States automobiles entering Canada on sale. Announcement to this effect was made by Hon. E. B. Ryckman, Minister of National Revenue.

Motor cars coming into this country from the United States enter on a listed price, less a discount, and on the reduced value duty is assessed. This discount has ranged all the way up to 30 per cent. and for the protection of the Canadian industry and Canadian labor, automobile manufacturers in this country asked that action be taken to place a maximum on the discount.

In the event of automobiles coming into Canada at 30 per cent. and a discount in excess of 20 per cent. Mr. Ryckman stated, the dumping provisions would apply.

Positive assurances have been received from Canadian manufacturers, Mr. Ryckman declared, that in no event will the price of cars to purchasers be increased by the action taken to protect the industry and furnish employment for Canadian workmen.

The whole subject was thoroughly discussed at a meeting of cabinet council which concluded recently. An order-in-council was passed and afterwards approved by the administrator.

Request for action came from Canadian automobile manufacturers in various parts of Canada. Some retail dealers in high-priced imported cars opposed the request, and the matter has come before cabinet council on several occasions within the past two weeks. Following lengthy consideration, it is stated, the government considered that a "spread" of 20 per cent. all round was sufficient to be allowed retained in the country from the American list price.

While no official statement has been made, it is generally understood that the automobile tariff schedules will be under revision at the coming session of parliament.

Approve Pool Vote

Will Craft Pool For Referendum On 100 Per Cent. Pool In Saskatchewan

Regina, Sask.—The House of Commons, the Saskatchewan legislature approved the resolution of a private member, that legislation ought to be passed to provide for a referendum on the 100 per cent. pool question. Further legislation would be passed to provide for the necessary machinery in case the referendum carried by a two-thirds majority.

The five members who opposed the resolution were: George Bennett (Conservative), Wolseley; James Grassie (Conservative), Regina City; H. A. Lilly (Conservative), Thunder Creek; Anton Huck (Liberal), South Qu'Appelle, and A. Jules Marlon (Liberal), Ile a la Crosse.

This resolution was moved by R. J. Greaves (Conservative), Melfort, and seconded by R. J. M. Parker (Liberal), Pelly. Most members who spoke on the motion considered that in view of the large number of resolutions calling for such a referendum, it ought to be granted, even though the cost would amount to about \$125,000.

To Open Parliament

Justice Duff Will Officiate At Ceremony On March Twelfth

Ottawa, Ont.—Parliament will be opened on March 12 by Mr. Justice Duff, of the Supreme Court of Canada. The ceremony will be performed, it is officially stated, by Mr. Justice Duff in his capacity as administrator.

Canada's new governor-general, the Earl of Bessborough, will not arrive in Canada until April 8 or 9. Chief Justice Anglin, who is now in the West Indies, will not return to this country until April 23. The chief justice will join the official party to the Buenos Aires exhibition when they reach Trinidad on March 2 to proceed to Buenos Aires.

Train Wreck In China

Hankow, China.—Thirty were killed and 72 injured in a train wreck, near Sinyang, 100 miles north of here on the Peiping-Hankow Railway. Because of heavy snowfall, the train crashed into the rail communications, the report reached here February 14.

Thumb Sketches

By Cy

'Genarians'

ONCE upon a time somebody expressed the opinion that all men who had reached the age of 60 had accomplished everything of which they were capable and consequently that society would be well advised to give them an overdose of chloroform and thus relieve itself of an unjustifiable burden. Something like that anyway.

Society, however, has not yet twigged the idea. No action has been taken at any rate. So the sexagenarians, and the septuagenarians, and the octogenarians are still with us; and a fair proportion of them are not only looking well after themselves but they are also rendering good service to society.

The venerable Samuel Larcombe, who lives a few miles east of Birtle, Manitoba, will graduate into the octogenarian class in 1932. He's 78 years old now. Mr. Larcombe is dubbed one of Canada's "Great Kings" because of his success at many of the great grain shows of the continent. A short time ago he wrote to the Secretary of the World's Grain Exhibition and Conference in which, among other things, he said: "I have one longing left, that is to celebrate my eightieth birthday by winning a prize at the World's Grain Show at Regina in 1932."

The sentiment behind Mr. Larcombe's longing suggests one of the finest tributes to rural life ever expressed. St. Reynolds Hole, another octogenarian, speaking at a banquet in London, England, in 1900, said:

"I have passed eighty milestones on the journey of life, being now, as my old gardener described himself, 'an octogenarian,' and my route has gone up to the highest summits and to the lowest depths. I have dined in a royal palace with the best queen that ever sat upon a throne and I have taken tea—they said it was tea—with paupers in cottages of mud. I have lived with peasants and with princes, with millionaires and with mechanics. I have had many famous men for my friends—statesmen and judges, generals and admirals, authors and artists—and there is no greater artist than the man who beautifies the land upon which he lives."

bine, as though they had the small pox or the plague. A 4 thousands o others are going to do likewise, in this new cycle of common sense, economy and hard work, which is 'no opening for western agriculture.'

Too many western farmers, during the years of prosperity, have lived much of the time on the road, in a high powered car, turning up gasoline for no purpose on earth. Now they are going to learn something about their own farms, dig into the subject of agriculture, on the land and stay away from the brokers and grain gambling offices. They are going to be real, honest-to-goodness farmers, for a few years.

And they will benefit by this change. They will emerge from this depression, high class experts in economy and sensible living. The country is going to be saved and will benefit millions of dollars, through this complete change of vision, outlook and practice of her farmers.

So, unpleasant as they may be, Hard Times are to be a Blessing in Disguise.—By Bert Huffman, Langdon, in The Hanna Herald.

5,000 FACTS ABOUT CANADA

"The Dominion in a Nutshell" is the arresting sub-title of the widely known annual, "5000 Facts about Canada," compiled by Frank Veigh the recognized authority of the Dominion through his writings and lectures. This 80-page booklet, now in its 23th year, has become indispensable to thousands of Canadians while it is in increasing demand from other countries desiring to learn of Canadian conditions. Fifty chapters ranging alphabetically from "Agriculture" to the "West" and "Yukon" tell the story of the country's progress in a series of brief crisp sentences easy to locate and assimilate—a story that is both cheering and stimulating. It is extensively used by governments, corporations, colleges and schools, and also as a means of "selling Canada" to people in other lands. It is therefore a most valuable advertisement of the Dominion. Most news dealers carry it or it may be had, at 35 cents a copy, from the Canadian Facts Pub. Co., 588 Huron St., Toronto 5.

AWARDED BARLOW MEMORIAL PRIZE

According to advices just received from the secretary of the Canadian Mining Institute, Dr. B. R. MacKay, of the Geological Survey of Canada, has been awarded the Barlow Memorial Prize for 1930 for his paper, entitled "Stratigraphy and Structure of the Bituminous Coal Fields in the Vicinity of Jasper Park, Alberta."

The Barlow Memorial Prize is an annual prize of \$50.00 in gold for the best paper presented to the Institute during the year on economic or applied geology. The award is in memory of Dr. Alfred B. Barlow, a noted Canadian geologist, who was drowned when the Empress of Ireland was sunk in 1914. The prize will be presented to Dr. MacKay at the annual convention of the Canadian Institute of Mining and Metallurgy to be held in Ottawa on March 4, 5 and 6.

Dr. MacKay has spent the past eight years in a detailed mapping of the coal fields of western Canada. He is the coal specialist of the Geological Survey, and in this capacity he has represented Canada on the International Committee of coal classification. The area covered in the paper referred to lies between the Saskatchewan and Smoky rivers in the foothills belt of the Rocky Mountains, covering a distance of 175 miles. This area embraces the most important bituminous coal fields of northern Alberta. Dr. MacKay's work is a distinct contribution to the knowledge of the commercial coal seams of this section of Alberta.

"I heard today that your son was an undertaker, and I thought you said he was a physician."

"Not at all! I said he followed the medical profession."

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor.
Serve the church that the church may serve you.

Services, Sunday, March 1st, the pastor in charge.

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

This is the monthly Young People's service. Subject: "The man who was compelled to carry the cross." Monthly question box.

Lethbridge Presbytery meets in Lethbridge on Thursday and Friday of this week.

ST. LUKE'S, BLAIRMORE

A. S. Partington, Vicar

Services, Sunday, March 1st—Sunday school at 10 a.m. Holy Communion and address at 11 a.m.

Every Thursday during Lent—Holy Communion at 10.30 a.m. Girls' Guild at 4.15 p.m., at Mrs. Hills. Choir practice at 7 p.m. Lenten service and address at 8 p.m.

A clergyman recently gave a young woman of his acquaintance a very bad quarter of an hour. On her wedding day he sent her a telegram, which, as received, ran: "John iv. 18." On looking up the text the girl was horrified to read: "For thou hast had five husbands; and he whom thou now hast is not thy husband." After they had restored the young woman to consciousness, inquiry was made at the telegraph office, when it was found that the operator had omitted the letter v numeral indicating the first epistle of John I. iv. 18, which reads: "There is no fear in love; but perfect love casteth out fear."

An American, passing over London bridge in a taxicab, leaned out and said to the driver: "Say, buddy, what's this little stream here?" The cockney taxidriver shouted out to a passing taxi knight: "Ere, Bert, your radiator's leaking!"

NESTLÉ'S

EVAPORATED MILK

(UNSWEETENED)

is easy to digest

By a process called homogenization, the large fat globules have been broken up into tiny ones—easy to digest and assimilate. That's one reason why Canadian mothers find Nestlé's Evaporated Milk so satisfactory for infant feeding and for growing children.

HARD TIMES A BLESSING IN DISGUISE

Nature, Life and Industry seem to run in cycles. We have sun spot cycles, drought cycles, cold winter cycles, windy season cycles and rainy cycles in Nature.

Likewise we have intricate and intriguing cycles in life, explained only by psychology, metaphysics and a deep study of human biology. We have waves of health and prosperity and waves of depression and misery.

In industry these same invisible and intangible movements seem to govern our progress along the great highway. For a period of years everybody seems to prosper. Any casual investment, any kind of slipshod labor and method, seem to return profits and bring success. And then, for some unknown and indefinable reason, the same identical people following the same identical methods sink into utter failure and despair.

In the present temporary business depression in our agricultural area, there is every indication that we have arrived at the end of a cycle which has been particularly glorified by prosperity.

Good crops, good prices, plenty of money to spend, a keen willingness to "keep abreast of the times" by buying heavily and extravagantly all of the most modern and up-to-date machinery and conveniences, have marked this closing cycle. We have lived at too great a speed, burned our candle at both ends, spent beyond our incomes, contracted expensive habits and thought this sort of thing would last forever, forgetting that life travels in cycles, and woe to the man who so forgets!

In the prairie provinces, particularly, we have thrown off our governor belt and opened the throttle wide. The engine of industry has simply run wild. Utterly regardless of the inexorable fact that pay day comes, sometime, we have bought and bought and bought. We have discarded perfectly good farm teams and bought tractors, combines, saws, with reckless abandon. Costly devices, these, and very precarious and costly

upkeep. Gasoline costs cash. These high priced modern conveniences can't subsist on oats and oat straw. Repairs cost cash, and an abundance of it.

And in the long run, these costly devices do not cut the cost of production for the man of small capital and limited farming lands. Rather, they add an intolerable burden to the small farm.

So, everywhere, this winter, is heard the cry of hard times, misery, depression, shortage of cash, imminent bankruptcy. It is the close of this cycle of rampant spending. It is the end of the mad rush to live beyond our means. The next cycle will be different. We will see a return to sanity, economy, hard work, watchfulness of small details, common sense living within our means.

More western farmers are now selling milk, cream, butter and poultry products, than for the past fifteen years. More women are baking their own bread, making their own Christmas mince meat, gathering and marketing their eggs, than ever before.

A Calgary grocery firm told me that they had sold more flour, yeast, cakes, raw materials for mince meats, raw materials for home cooking, this fall, than ever before in fifteen years. Farm women and city women are coming back to the old fashioned habit of genuine housekeeping and cooking.

Another Calgary store manager told me that their sales of yardage dress goods had more than trebled this fall over last fall. More women are buying the materials and making their own and their children's dresses. Heretofore, these same women thought nothing of buying a dress at \$50 to \$100 for themselves or their grown-up daughters. Today they are buying yardage, trimmings, buttons, and are setting down to the sewing machine to exercise and put into use their knowledge of sewing which was once their boast and their pride.

My neighbor, who has worn out half a dozen tractors in the past six years, and whose gasoline bill for the past season was well over \$2,000, asked me recently how much my feed oats bill had amounted to for the past season.

We had cropped about the same number of acres and had enjoyed about the same return from our crops. So we were in about the same state of mental anguish about farm expenses, farm income and the outlook for agriculture. And whereas his bill for gasoline used in tractors and combines had run over \$2,000, my feed oats for about the same work that he had done, cost me less than \$1,000.

This one western farmer, at least, is getting rid of his tractor and com-

FRENCH JOURNALIST

RETURNS FROM YUKON

The engine which burns wood and creates its own gas as it runs—it is well known in France if not in Canada—would be very useful in the Yukon, according to Jean Allouche, correspondent of the Petit Parisien of Paris, who has reached Montreal, on his way home, after four months in Alaska and the land of the Klondike. Automobile fuel, he says, is almost prohibitive in cost in the North. Allouche made the trip to look into the attractions of the Pacific Coast for French tourists and was particularly interested in the Canadian National Steamships route from Vancouver to Prince Rupert and Skagway, connecting with the little railway which runs through White Pass to Whitehorse and connects with the steamers to Dawson. On this occasion the French visitor tramped the distance between Whitehorse and Dawson and back, 700 miles, on snowshoes behind a dog train.

Two auto tourists met on a mountain road too narrow for them to pass. One, being very hot tempered, shouted to the other: "I never back up for this little blank fool." The other driver calmly threw his car into reverse and backed away, saying: "O. K., Pard. I always do!"

WESTERN CANADIAN

ELEGATES LEAVE FOR

BRITISH EMPIRE FAIR

Western Canadian members of the party which will make a 49-day cruise aboard the Canadian National steamship "Prince Robert" to South American ports and to attend the British Empire Fair, left last week-end for Halifax, from where they will sail on February 21.

Some 200 prominent Canadians compose the Good-will party which will represent the Dominion at the Empire Exhibition. Included in the group will be Sir George Perley, representing the Canadian Government, and Lord Perley; Col. J. H. Woods, president of the Canadian Chamber of Commerce, which, with the Canadian Manufacturers' Association, promoted the trip; Elmer Davis, president of the latter organization; T. B. Macaulay, president of the Sun Life Assurance Company; four members of the Royal Canadian Mounted Police, who will guard the Canadian pavilion at the fair; Senator C. P. Beaulieu; Senator C. W. Robinson; W. D. Robb, vice-president of the Canadian National Railways, who will represent Sir Henry Thornton, president; and Major K. O. Thorn, Ottawa.

WHO'S WHO

Hon. W. C. Buckle

CHAIRMAN of the Executive and Finance Committee of the World's Grain Exhibition and Conference, is the important position occupied by the Hon. W. C. Buckle, Minister of Agriculture for Saskatchewan.

Mr. Buckle is a native of Gloucestershire, having been born at Robinswood Hill Farm, Tuffley, on a farmstead occupied by his family for several generations. His education was received at Sir Thomas Rich's Endowed School, Gloucestershire, and Brentford College, London, England.

Coming to Canada in his teens, Mr. Buckle served his farm apprenticeship at Clonwilliam, Manitoba. In 1910 he moved to Tisdale in the famous Carrot River Valley district and engaged in farming near Tisdale.

Three years later Mr. Buckle became engaged in business in Tisdale, of which town he was mayor for four years. In the meantime he added considerably to his farming operations, and in 1925 was elected to the Saskatchewan Legislature to represent the Tisdale constituency.

In 1927 Mr. Buckle disposed of his business and devoted himself entirely to farm operations. In 1929 he was again elected to the Provincial Legislature. He joined the Government of Saskatchewan the same year and took charge of the Department of Agriculture.

Drumheller will conduct a programme of relief work, involving \$18,000.

CORBIN HAPPENINGS

The ladies of the United church held a very successful tea and sale of home cooking in the Lodge hall on Monday afternoon last.

The members of the Rebekah lodge held a very enjoyable bridge tea on Thursday afternoon, at which Mrs. M. Gibson was the lucky winner of the first prize, and Mrs. Petrie, a visitor to town, received the consolation.

The Ladies' Guild held a very successful dance in the Club hall on Friday night. Mr. D. Waddington and Barney Lyne supplied real raggy music for the occasion. Miss Peggy Gibson was the owner of the lucky ticket drawn for a box of chocolates.

Why go to California this winter? Our local thermometers have never registered lower than four degrees below zero.

Mr. L. Ruscilli, who has been ill in Fernie for a number of weeks, was seen back at work on Monday of this week.

Messrs. Jack Thompson and Harry Gardner were week-end visitors to Coleman.

Miss Marjorie McDonald, of Blairmore, is at present visiting with Mrs. Dr. Elliot.

Mr. and Mrs. W. Almond and daughter Marie spent the week end in Michel.

COD LIVERS ARE

SHIPPED IN DRUMS

Most people are familiar with the metal drums in which gasoline is shipped, but sometimes they do not contain gasoline. If you happened to be at Lockport, on the south shore of Nova Scotia, and saw a pile of these drums, don't come to the conclusion that the inhabitants must consume a lot of gasoline. More than likely, if you opened one of them you would find it filled with cod's livers. Lockport is one of several fishing centres on the south shore of Nova Scotia, and many carloads of cod's livers find their way to Ontario, where they are converted into cod liver oil, the bane of childhood. The livers are preserved by a special process which enables them to be shipped in this manner. At the fishing stations men are assigned to gather the cod's livers immediately the catch arrives and the fish are opened and packed them in these drums for shipment.

"NOBODY'S BUSINESS"

The insurance man chased the business man into his office. That was his business.

The business man chased the insurance man out of his office. That was poor business.

The business man two years later chased the insurance company and was rejected. That was their business. One year later the business man was chased off the earth. That was unfortunate business.

Three months passed and his family was chased into the street. That was nobody's business.

COWLEY HAPPENINGS

The annual meeting of ratepayers of the Municipal District of Livingstone No. 70 was held in Cowley on Saturday last. Nominations were in order for the vacancies on the council. A. J. Snyder and L. Lohart were re-elected by acclamation in Divisions 2 and 3, while Councillor Cameron in division 6 has opposition. Much discussion took place over expense of road work, with result that recommendation was carried that all road work be done in future by tender and contract. The weed question was also thoroughly debated, weed inspector W. T. Eddy being in attendance to answer all questions.

Mrs. E. Cowin is visiting in Calgary with her daughter, Mrs. Ralph Easterbrook, and family.

A concert was held in the United Church on Friday night, at which most of the programme was furnished by the children of the district.

Ross Rhodes has gone to Hamilton, Ontario, for a two weeks' visit with relatives.

Jack O'Connell was a Sunday visitor to Blairmore.

Miss Mary Kaye entertained the Cowley Bridge Club at her home on Monday night.

ODDFELLOWS GRAND OFFICERS

The election of officers of the Grand Lodge of the Independent Order of Oddfellows of Alberta took place at Lethbridge on Friday last. D. F. Christie, of Calgary, was elected grand master; J. B. Allison, of Granum, deputy grand master; E. G. McPherson, of Vulcan, grand warden; O. E. Tisdale, Calgary, re-elected grand secretary, and G. W. Henderson, Calgary, re-elected grand treasurer.

STICK TO YOUR LAST FIRST

One day I watched a plumber fix

A leaky bathtub-slick and clean;

"There's nothing to these plumbers' tricks."

The thought exploded to my brain,

"I'll do my own work like that And with the savings buy a hat."

Eventually it fell my lot

To own a tub that leaked like sin.

The more I toiled, the worse it got,

Until at last my soul gave in.

I called a plumber in my shame.

He quickly fixed it up again.

Tis always thus when humans try

To do the things they don't know how—

To fly a plane around the sky,

When all they've ridden is a cow.

"Stick to your last" is always best,

And let a tailor make your vest.

He had one arm upon the wheel,

Quite joyful was his ride,

The other arm was wrapped around

The sweetie by his side.

A "copper" yelled, "Use both your hands,"

In a voice that carried far,

"I can't," that loving swain replied,

"I have to steer the car."

A JACK OF ALL TRADES

A bank in New Jersey ran this advertisement in a local paper:

"Wanted—a clerk. Must be experienced in foreign exchange. Salary,

\$15 a week."

This was one of the replies received:

"Dear Bank—I would respectfully

apply for the position you offer. I

am an expert in foreign exchange in

all branches. In addition, I converse

fluently in Gum Arabic, Zola, Gorgonzola, and Billingsgate. I write short-

land, long hand, left hand and right

hand. I can supply my own type-

writer, if necessary, and I may men-

tion that I typewrite half an hour in

10 minutes, the record.

"I would be willing also to let you

have the service, gratis, of my large

family of boys, and if agreeable to

you, my wife would be pleased to

clean your office regularly without ex-

tra charge. The cost of postage for

your answer to this application can

be deducted from my salary.

"Please note that if you have, a

backyard, I would make bricks in my

spare time."—Boston Transcript.

OWL IS FOOLED

BY STUFFED DUCK

Sometimes even the wise old owl

gets fooled. This happened the other

day at the National Museum of Can-

ada, when a huge owl mistook a stuffed

duck for a good meal. The owl, a

specimen, had been brought to the

museum late in the afternoon.

He was confined in a cage to await

slaughter and stuffing the next day.

But the owl was hungry and escaped

from the cage and saw the stuffed

duck. The next morning, museum at-

tendants found the floor littered with

feathers and stuffing material. But

the owl was still hungry.

"Why is Mable so angry? The

papers gave a full account of her

wedding."

"Yes, but they put in that Miss

Blackfield was married to the well-

known collector of antiques."

"A SINGLE SIP PROVES IT"

WORLD HAPPENINGS BRIEFLY TOLD

Mrs. Eugenie Gladu, aged 77, only sister of Louis Riel, famous leader of the uprising in the Canadian northwest, is dead.

His Majesty has honored the Earl of Bessborough, new governor-general of Canada, by conferring upon him the Grand Cross of the Order of St. Michael and St. George.

The Earl of Bessborough, newly appointed governor-general of Canada, will sail for Canada on the Canadian Pacific steamship, "Duchess of Bedford," on March 27.

Lieutenant-General Bernheim, of Belgium, who commanded the Belgian troops on French soil during the great war, died recently in Paris.

Lord Bledisloe, governor-general of New Zealand, requested that his official salary be reduced ten per cent. for the public interest. Premier Forbes gratefully accepted his offer.

The sum of \$100,000,000 has been added to Great Britain's debt fund by the House of Commons. It has accepted recommendations of Rt. Hon. Margaret Bondfield, Minister of Labor, for new unemployment loans.

Emile St. Godard, The Pas, Man., won the best time prize in the three-day New England dog derby championship at Laconia, New Hampshire. His brother, Leo, won the handicap time prize.

Russian winter wheat acreage is estimated by the United States Department of Agriculture, to have increased 19 per cent. over a year ago, when the area was estimated at 25,172,000 acres.

Great Britain's tragic dirigible R-101 is to fly again, in spirit. The Zeppelin built at Friedrichshafen, has bought the metal remains of the ship and will melt them down to be fashioned into parts for the new German dirigible LZ-129.

Praises Irish Linen

His Majesty King George Makes Purchases in Belfast

"I prefer Irish linen and every shirt I have comes from Belfast," said His Majesty, when, with Queen Mary, he visited an exhibition of the Linen Industry Research Association in London, England.

Examining table linen that had been washed in various laundries, the king remarked: "Some laundries do use up linen, but I suppose when it comes back with holes it is good for trade."

His Majesty has 'just placed several acres of the royal estate at Sandringham, Norfolk, under cultivation for flax, though most English land-owners say that flax takes more out of the earth than it yields.

Canadian Printers and Publishers

Out of the 753 printing and publishing plants reported in Canada in the 1928 census of industry, 206 were located in Ontario; 135 in Saskatchewan; 76 in Alberta; 67 in Manitoba; 62 in Quebec; 61 in British Columbia; 51 in Nova Scotia; 21 in New Brunswick, and 4 in Prince Edward Island.

The man with a private grievance usually becomes a public nuisance.

Tozeur, the largest oasis of North Africa, contains 250,000 palm trees.

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver.

Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills.

They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs; small, easy to swallow, and not habit forming. They are not a purgative, but cramps of the bowels disappear after effect following, on the contrary a good tonic. All druggists 25c and 75c per pkg.

W. N. U. 1928

Britain's Naval Program

Dropping Away Behind France and Italy, Which Causes Alarm

Indications that the Labor Government is becoming concerned over the naval construction programs of other powers were again forthcoming from Rt. Hon. A. V. Alexander, first lord of the admiralty, in a speech at Newcastle, England.

"We have pleaded for disarmament," the first lord said. "I think you can go too quickly in this matter unless you can get other countries in Europe to go as quickly as you. You will find a steady decline in our naval expenditures, and a steady rise in almost every other country. You begin to ask whether it is a sane policy."

In the House of Commons a few days ago the first lord pointed out that if Italy and France continued to increase their naval construction programs, Great Britain would have to reconsider her own. While the British program, following the ordinary replacement requirements, has only 46,000 tons under construction, France has 100,654 tons under way, and Italy 100,777 tons.

The British construction program is well under the replacement or new construction that Great Britain may legitimately carry out under the terms of the London Naval Treaty.

What Hen's Keep Costs

The ten-year average of the cost of feeding laying hens at the Lennoville Experimental Station of the Dominion Department of Agriculture is \$2.43 a hen; which means that with eggs selling at an average of 35 cents a dozen it takes 6.95 cents, or \$1.85, to pay for the keep of the laying hen, eggs laid in excess of that number being profit.

Canadian Yellow Birch

Yellow birch is commercially the most important hardwood in Canada, forming more than one-third of the hardwood lumber produced in the Dominion.

A French air service in South America covers 6,917 miles.

The largest kind of bird's egg ever known was laid by a great extinct bird called the Aepyornis, which lived in Madagascar.

When the King Travels

First Class Fare and Payment For Royal Train Is Collected

Most people believe that the royal train is the property of the King and that he and the other members of the royal family travel free. That is not the case. Each of the four railway groups maintains a train for the special use of the King and Queen, and when it is in commission the King pays 13s. 4d. a mile in addition to first-class fare for all the royal party and the members of the suite and the household who accompany them. The royal train is fitted with every imaginable convenience for comfort. The color scheme of the interior includes much gold and white. Polished teak double doors open on to a square vestibule which leads to the King's smoking room. The furniture of this room is in handsome mahogany upholstered in apple-green Morocco leather. Next to the smoking room is the day compartment, where the furniture is covered in green silk rep and Jacobean tapestry. Then comes the King's bedroom with satinwood furniture. Further on is the bathroom, which was installed during the war, when their Majesty lived in the train for a week at a time, visiting munition factories and other centres of activity. The Queen's saloon has a color scheme of her favorite blue. Much preparation is necessary before the royal journey starts. Long before the train is timed to pass those places at which there are level-crossings the gates are locked. For half an hour before the train enters any given section all shunting operations stop and all sidings are examined to see that everything is clear of the main line. To forestall difficulties created by breakdown of signals or a sudden fog, provision is made for the progress of the train to be signalled mile by mile by lamp and flag.

PILES

RAIN STOPS LIKE A FLASH!

For months, nothing helped me until I used Piles Ointment. It cured me in 10 days. No more pain, no more itching, no more bleeding. It's the only cure for Piles.

Indians Predict Trouble

Say Horror Will Follow Removal Of Skeleton at Orillia, Ontario

"There will be horror in Orillia, you will see. These are the ominous words of Indians on the Rama Reserve, near there, following the removal of the ancient skeleton shortly after its discovery by workmen. The skeleton, the Indians claim, was that of a romantically buried Indian girl, and its discovery was followed by a further find of a male skeleton within a few feet of the first.

"She was a maiden who lost her lover in war," the Indians say. "She died a maiden and she was buried away from her people, alone on a hill, so that her lover might come to her. Maybe he did come. We do not know. But through the long years she lay there a Peeping Tom has been watching. That alone would make the Manitou mad. Now white men break up her bones, disturb her grave. There will be horror in Orillia. You will see."

SUNDAY SCHOOL LESSON

MARCH 1

JESUS SENDING FORTH MISSIONARIES

Golden Text: "The harvest indeed is plentiful, but the laborers are few; pray, therefore, the Lord of the harvest, that He send forth laborers into His harvest."—Luke 10:2.

Lesson: Luke 9:1 to 10:24.

Devotional Reading: Romans 10:8-15.

Explanations and Comments

The Seventy Sent On a Mission, 10:1-3.—As Jesus had sent out the twelve on a special mission tour (9:1-6), so He now sent out seventy others, not as in the case of the Twelve, for permanent work. Jesus sent these men out in companies of two, for mutual help and companionship, and back into the cities which He Himself was planning to visit after their preliminary work.

The Counsel Given the Seventy, 10:4-16.—These men were to travel light; they were to take with them no purse, no wallet, no shoes. They were to have no money in their pockets, which answered the purpose of a purse, and no provisions in their wallets, which answered the purpose of a purse. They were to be "outsiders," and no shoes in addition to the sandals which they wore. Their message was vital, they must hasten, hence they could not stop to salute anyone on the way, for Oriental salutations consume much time.

On entering a house, they were to greet the family with "salute," a friendly greeting, of "Peace be to this house"—a prayer that the household be at peace, and every respect "And if a son of peace [a beautiful phrase for one inclined to peace] be there, Jesus added, "your peace shall rest upon him."

"But what were they to do when they entered a village? If the village was met with scorn, and the hospitality that was due a stranger was denied them? Often men who are great and noble in situations where popular favor surrounds them, lose their self-mastery under the irritation of little rebuffs and slight personal opposition. Jesus understood this, and so He told the men who were to represent Him in the villages: If you are not welcomed, do not go in, but shake the dust of your feet against them, and say, 'Peace be to you.'"

"What a beautiful idea, that the blessed Peace comes back and blesses the heart that wished it, as if courteous and kind words never went unrewarded."—T. R. Glover.

The Mission Of the Seventy Crowned With Success, 10:17-24.—The Seventy returned with joy, and reported that even the demons had been subject to them in the name of Jesus. By a figure of speech (verses 18 and 19), Jesus declared that in their success He saw a prophesy of the ultimate conquest of His Kingdom over the whole world. He gently rebuked their self-satisfaction by adding, "In this rejoice, not that the spirits are subject unto you; but rejoice that your names are written in heaven." "Do not rejoice in your command of a gift, but rejoice in your relation to your God."—J. H. Jowett.

The Joy Of Jesus, 10:21-24.—Jesus Himself rejoiced in the success of His followers, and gave thanks to the Father that He had hidden these things from the wise and understanding (the scribes and Pharisees who thought themselves such), and revealed them to babes, the simple, unlearned, and lowly.

Police in Canada Efficient

Law Enforcement in Canada Is Worthy Of Praise

It would appear from a survey of a report recently issued by the Canadian Government Bureau of Statistics for the calendar year 1929, that the police and law enforcement officials in Canada are on to their jobs.

Statistics collected from cities and towns having a population of 4,000 and over show that in 138 such centres with a total population of 3,350,703 the number of police officers employed was 5,004; one officer to every 671 persons. Summons issued for infractions of the laws during the year numbered 168,532; and 127,827 arrests were made, an average of 25 arrests per officer. Offences reported to the police numbered 329,496; there were 263,532 prosecutions, 213,324 or about 81 per cent. of which resulted in convictions. Of the 11,160 automobiles reported stolen, all but 10 or over 99.9 per cent. were recovered. The value of other goods stolen was \$2,290,972, and the value of goods recovered was \$1,825,089.

The production for the month of December, 1930, was the largest for a single month that has yet been made in Alberta, 175,573 barrels, a gain of \$1,818 over the corresponding month of the previous year. Most of the oil produced in Canada comes from Alberta. The Province of Ontario accounts for 129,000 barrels of the total production.

Guarded by policemen, a tricycle recently carried \$62,000 in cash from a bank to a loan company's headquarters in the busy part of Edmonton, England.

About one-fourth the population of Argentina is of European origin.

Increase In Oil Production

Alberta Oil Production Is Decidedly On The Up Grade

Oil production in the Province of Alberta is decidedly on the up grade, according to the figures for 1930 recently compiled by the Provincial Government. The total output in 1930 was 1,435,844 barrels, compared with 999,152 in 1929.

The production for the month of December, 1930, was the largest for a single month that has yet been made in Alberta, 175,573 barrels, a gain of \$1,818 over the corresponding month of the previous year. Most of the oil produced in Canada comes from Alberta. The Province of Ontario accounts for 129,000 barrels of the total production.

CHAPTER XI.—Continued.

Halliday's clenched hands trembled. He was remembering a time when he could not have gazed upon her thus without a longing to lay his cheek against her own. No such desire stirred him now. Her beauty seemed, almost, a repellent thing. His face quivered as he looked at her; but at last, with a sigh of weariness, he turned away and went to his own room.

For a week Nick's life hung in the balance. The fearful chill of the cold ride—the strain on his nerves—the terrible fatigue, had done their worst; and had it not been for the clean young strength of him, pneumonia would have claimed him for a victim.

"He's got only a fighting chance," said the old doctor honestly, while the look in his eyes nearly broke her heart, "but Nick won't go under without a fight. Now's the time, my dear, when he'll be repaid a thousandfold for leaving his wild oats unsown. He's sound and strong, and he has a lot to live for. We'll pull him through if it's a human possibility."

Gay hardly saw her babies in those days. With Julie's help she dressed them every morning, and after breakfast Janet Garnett (John Maxwell's youngest daughter and Gay's girlhood chum) came on a visit with her own baby, took them in charge, keeping them happy through the long days, and returning them at night, ready for bed.

"I'd keep them nights and all, Gay, if I didn't know you'd be happier to have them here," said Janet understandingly. "Mother says not to worry about dinner for tomorrow. She'll send down enough for everyone. Oh, Gay, I wish we could do more!"

Gay couldn't speak. This was the third day, when things looked very black indeed. A second nurse was installed now, and Uncle Sam was staying at the Bakererville Hotel, spending his time between Gay's garden, where he paced back and forth like a caged beast, and John Maxwell's house, where he took a sad pleasure in helping to keep the babies happy.

An atmosphere of gloom pervaded the first National Bank.

"Gosh!" exclaimed Johnny Symmes, whose eyes joined Nick's, "what if he don't get well? I saw Doc Bennett this morning, and he said—"

He broke off suddenly, and began

A Friend to Women

Lydia E. Pinkham's Vegetable Compound

Lowell, Mass., U.S.A.
and Chicago, Ill., Canada

W. N. O. 1878

an attempt at whistling that deceived no one, while the two stenographers openly wiped their eyes. The First National Bank was about as cheerful as a mausoleum.

Gloom also pervaded the house of Halliday. After five days Angela said she could stand it no longer. "I believe I'll go to the store. Between hearing you at the telephone calling up the hospital about that child—and the sight of that horrible old man peeing up and down that garden, I'll go crazy. I think I'll go to Narragansett for a month."

"You will do no such thing," James Halliday spoke quietly, but with decision.

"You may be heartless, Angela, but for the sake of decency you shall not behave in this manner. Because of your own actions, the man is at death's door."

She drew an angry breath.

"You blame me for everything. It wasn't my fault that that stupid child ran in front of the automobile."

"No, but you shouldn't have been there, Angela. Considering the errand I had gone on, would it have done you to stay quietly at home?"

"What good would it have done me to be bored all day? No one in Bakererville knew your mother."

He turned away, then said, his back still to her: "Who were the friends whom you expected to join you on your trip?"

"Friends?"

"Her voice was a little breathless, and her eyes dropped as he wheeled and faced her."

"What do you mean?"

"I mean that Hastings understood you expected company to take this trip; and that you didn't wish to drive the new car yourself."

She shrugged.

"Where did you get all that?"

"That's neither here nor there, but—"

"You got it from that stupid little woman," she said scornfully. "Probably he concocted the story so she'd let him go. I didn't suppose he was so clever."

"Hastings is not a liar," said her husband quietly.

"And am I?"

Her eyes narrowed; but Halliday merely turned and left the room.

Slowly, doggedly, Nick fought his way through "the valley of the shadow."

"He'll pull through now," said the doctor quietly, "provided he has no set-backs, and we'll see that he doesn't. He's sleeping quietly and naturally. When he wakes, Gay, you can sit with him a while; but you mustn't talk. There, child! cry if you want to. It's been a hard week—hard on all of us. Gay, I'm going to stop at the bank on my way home, and let 'em know the worst is over."

But the doctor's progress down Main Street was very slow. People hailed him from many a doorstep, and went more happily about their tasks at the good news.

"Everyone loves Nick," he mused as he started his car for the fifth time in eight miles. "He's a good boy, but I can't help wondering why he was off that day with Mrs. Halliday. Don't understand it. Hope people won't get wind of it. Halliday won't talk, but somehow I don't trust his wife. She's a mischief-maker, or I don't know women. Her eyes are so innocent for truth. But she's mighty pretty! Don't know when I've seen such a pretty face; though I wouldn't mind if she'd take it away from Bakererville for good and all."

She did take it away, for a time. Two days later, when James Halliday returned from a trip to a distant hospital, he found a violet-scented note in his wife's place:

"Now that our neighbor is out of danger, I suppose I may get the change I need. You gave me little enough sympathy after that terrible experience, but then, I didn't expect sympathy from you. I'm going to Rye. Don't look for me for a fort-

night, or longer, but send a check first mail."

"It's just as well," said Halliday to himself, as he dropped the envelope in the waste basket. "It may be a relief to Mrs. Hastings to know she's gone."

But in truth, Gay had no thoughts, unkind or otherwise, of Angela Halliday. In those days of anxiety and dread she had forgotten her. Now, in the joy of seeing Nick come back to life, nothing else mattered.

"There's a lot to explain," he said on the first day he was allowed a word or two, "but I haven't the strength for it now. If you'll just keep on trusting me—"

"I'll trust you forever and ever," she interrupted, and he said:

"I know, dear, I've known it all the time; but there's something I've got to ask or I can't rest. A terrible thing happened on that trip, Gay. I must find out—"

"It's all right, Nick," she broke in quietly. "The child is living. Mr. Halliday told me. He's been to see the little thing. Oh, my dear, everyone has been so wonderful! Now that you're getting better I—I feel that these terrible days have been paid for, almost, in human kindness."

He smiled, and would have spoken, but she said: "Wait, Nick. I haven't finished. I've been finding out that what your mother told you is true as truth. When the way seems hardest, we do seem to reach a hill-top, a place where we can breathe again, and see life and—all everything, with a new vision. I can't say just what I mean, perhaps, but I feel that I've reached one of those hill-tops now. Life will lead us into the valley again. I know; there'll be suffering, and trouble, and doubt, and anxieties to live through; but I shall always be richer for the dearthness of those who tried to make this hard time easier."

"Oh, Gay," he answered, "if I could only keep you on the hill-top! But—but as I look back at things, I see that all your troubles come through me!"

She retorted, the first care-free smile in days lighting her eyes: "Have you thought where I find my joys?"

(To Be Continued.)

Parliamentary Etiquette

Suggested That Vocabulary In Public Life In England Is Rougher Than In The United States

How much rougher the vocabulary of public life in England than in the United States is suggested by the fact that with the Americans, says the New York Times, it is a front-page sensation when a Congressman refers to a United States Senator, several hundred feet away at the other end of the Capitol, as a "liar."

In the House of Commons, England, it is epithet heard much more frequently, followed by the Speaker's "naming" the offender, and the offender withdrawing the injurious epithet and apologizing to the House.

When etiquette does get itself upset in Congress it usually takes the form of action rather than words. Infuriated statesmen plunges at each other with raucous intentions of mayhem, but always manage to get themselves clasped around the waist by the restraining hands of a couple of friends who is too late.

In British circles the air grows sulphurous when Lady Astor and her dearest enemy, Jack Jones, swing into action. It is hard to think of a man at Washington in a position suggesting the form of Ramsay MacDonald in England being called a "boneless wonder" to his face by one of the stature of Winston Churchill.

And outside of the Commons there is Lady Houston, differing from the Under-Secretary for Aviation and requesting him by letter to assume a virtue even if he did not have it—"namely, of attempting to behave like a gentleman."

And outside of the Commons there is Lady Houston, differing from the Under-Secretary for Aviation and requesting him by letter to assume a virtue even if he did not have it—"namely, of attempting to behave like a gentleman."

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drugstore; the genuine always bears Chas. H. Fletcher's signature.

Fletcher's CASTORIA

Increases Efficiency Says Well Known Submarine Engineer

"Synthetic air," composed of helium and oxygen, as a means of sustaining the respiration of deep sea divers, has received the O.K. of Captain Sloan Danenhov, widely known submarine and salvage engineer.

Captain Danenhov, who will command the Wilkins submarine "Nautilus" on its undersea dash to the North Pole this summer, made a diving test at the Philadelphia navy yard in which "synthetic air" was used instead of Mother Nature's atmosphere.

"The advantage of using helium-oxygen," he explained, "will increase the efficiency of divers as to the depth they can go, the time they can work under the surface and the speed with which they can go through the decompression process."

After 10 Years Of Asthma Dr. J. D. Kellogg's Asthma Remedy proved the only relief for one grateful user, and has received the O.K. of many others. Little wonder that it has now become the one recognized remedy on the market. It has earned its fame by its never failing effectiveness. It is startling today, as it has done for years. It is the greatest asthma specific within the reach of suffering humanity.

A Clever Retort

While on his visit to this country, Marshal Foch was a guest at a dinner party, when one of the other guests took exception to French politeness. "There is nothing in it, but wind," he said with questionable taste. "Neither is there anything but wind in a pneumatic tire," retorted the gallant marshal, "yet it eases the jolts along life's highway wonderfully"—Capper's.

A Real Celebration

Here's a short story on longevity. Mrs. C. H. Jones, 80, of Cornwall, Vermont; Mrs. Lucy Crane, 90, and Mrs. John H. H. Jones, 90, both of Weybridge, went to Lewiston, N.Y., to help their fourth sister, Mrs. Eliza, both Jewett Scovell, celebrate her 100th birthday. All four sisters are in excellent health.

Canadian Reinder Herd

Few Predatory Animals To Molest Reindeer On Long Journey

Après of the journey of the herd of reindeer which is being brought by the Dominion Department of the Interior from Alaska to enhance the living conditions of the natives of Northern Canada, there are very few predatory animals to be found on the coast near the line of route from the Alaska-Yukon boundary eastward to Cape Bathurst. Wolves are of very rare occurrence and the only animals that may occasionally give trouble to the reindeer are the Barren Ground grizzly and the Polar bear.

Bishop Has New Idea

The Bishop of London, Dr. Winstanley-Ingram, says the voice of science today seemed to present very different end of the world from that described in the New Testament. The probable end of the world would not be by fervent heat. It would probably be a frozen death.

"All the books of science," he said, "have confirmed my faith."

Where the Plums Are

"After all, the city government is just like a tree—its officials are merely the branches, but you people are the roots and the trunk."

"Aye, true," spoke up one son of Erin, "but ye must admit that all the plums grow on the branches."

A naturalist points out that there are more than 600,000 kinds of insects, and most of them make no sound that a human being can hear.

Libraries In Canada

Hundreds Of Libraries Give Readers Free Access To Good Literature

Supplementing the work of the various educational institutions of Canada are hundreds of libraries in different parts of the country. In a list of 1,025 for which statistics have been collected, 623 are free public and association libraries, 126 are university, college or normal schools, 22 are 25-million or Provincial Government libraries, and 224 are otherwise classified.

Legislation making some provision for public library accommodation exists in each of the provinces, as well as in the Yukon, and all of the larger centres of population have libraries free to all. Smaller settlements, especially those in frontier places, such as mining and lumber camps, are reached by travelling libraries under one management, or the Provincial Governments, or universities. In each of the provinces legislation is in existence to facilitate the establishment or expansion of libraries in the public schools, and many of these institutions have very considerable collections.

Diver Likes Synthetic Air

Increases Efficiency Says Well Known Submarine Engineer

"Synthetic air," composed of helium and oxygen, as a means of sustaining the respiration of deep sea divers, has received the O.K. of Captain Sloan Danenhov, widely known submarine and salvage engineer.

4 Years without HEADACHE

How do you deal with headaches?

Do you just take something to deaden the pain without getting rid of the trouble which causes the pain? Thousands do, despite the medical profession's warning cry of "Halt!"

Such makeshift methods simply suppress the symptoms of headaches. They merely numb the nerves and leave the underlying cause to look after itself. And it only obtains a truer grip—Headaches can generally be traced to a disordered retention in the system of stagnating waste material which poisons the blood. Remove these poisons—prevent their forming again—and you'll never have to worry any more. And that is just how Kruschen Salts bring swift and lasting relief from headaches. Kruschen Salts aid Nature to cleanse your body completely of all such waste matter.

For many years I suffered from severe headaches almost daily. I started taking the small dose (of Kruschen) a matter of four years ago, and I can honestly say I have never had a headache since."—Mrs. M. W. J.

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which bear the name of the famous "GIANT" brand. Ask your druggist for the new "GIANT" 75c.

This consists of our regular 75c bottle together with a 25c bottle—enough for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced, return the bottle unopened. Your druggist is authorized to return your 25c bottle immediately and without question. You have tried Kruschen free, at our expense. Write for the "GIANT" 75c bottle. Manufactured by E. C. Hughes, Ltd., Manchester, England. Sole Importers: McCullough, Ltd., Toronto.

Little Helps For This Week

"He heathen, the broken in heart, and bindeth up their wounds."—Psalm cxviii.

Then sorrow, touched by Thee, grows bright. What more than rapture's ray. As darkness shows us worlds of light. We never see by day.

Wherein is the blessedness of those that mourn? Christ says, in being comforted, in the victory of their faith, in the endurance of love, trust and patience. Remember until we are thus comforted in our hours of sorrow, we are not one with our Leader, nor in communion with our Father's Spirit. No one will suppose that the blessing of affliction consists in the suffering it brings. It consists in the spiritual response to suffering of one whose confidence is in the source of love.—John Hamilton Thorne.

Soft corners and warts are ugly, painful and irritating. Remove them quickly and surely with Douglas' Egyptian Liniment.

Original Copy Brings High Price

A rare book dealer, Jerome Brooks, paid \$13,000 for a copy of the first issue of "Pickwick Papers," with a fragment of the original manuscript by Charles Dickens, at an auction of the library of George Udo of Pine Valley, N.J. The copy formerly belonged to the late George Barry McCutcheon and is one of the 14 "prime" copies extant.

Fruit acids do not make the diet acid. On the contrary they counteract the acid effects of meat, eggs, bread and cereals, preventing the blood from becoming too acid or too alkaline.

always to be relied on for breaking up colds.

Buy the box that says Aspirin and has Genuine printed in red. Genuine Aspirin tablets do not depress the heart. All druggists.

WORK won't wait for a headache to wear off. Don't look for sympathy at such times, but get some Aspirin. It never fails.

Don't be a chronic sufferer from headaches, or any other pain. See a doctor and get at the cause. Meantime, don't play martyr. There's always quick comfort in Aspirin. It never does any harm. Isn't it foolish to suffer any needless pain? It may be only a simple headache, or it may be neuralgia or neuritis. Rheumatism. Lumbago. Aspirin is still the sensible thing to take. There is hardly any ache or pain these tablets can't relieve; they are a great comfort to women who suffer periodically; they are

The Canadian Breakfast

G. G. Cootie, M.P., was in town on a brief visit on Monday.

One day, as I chanced to pass, A beaver was darning a river. And a man who had run out of gas, Was doing the same to his flivver.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF WASYL PANCHUK, late of the Hamlet of Bellevue, miner, deceased.

NOTICE is hereby given that all persons having claims on the estate of the said Wasyl Panchuk, who died on the 12th day of November, 1930, are required to file with the undersigned by the 15th day of March, 1931, a full statement duly verified, of their claims and any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to his knowledge. Dated this 18th day of February, 1931.

S. G. BANNAN,
Blairmore, Alberta,
Solicitor for Pete Stelmachovich, of Bellevue, Alberta, the Executor of the Estate.

Miss Emily Nosek, of Natal, was a week-end guest here of Miss Minnie Houghbreg.

Johnny Dicken of the Turner Valley-Okotoks Imperials' forward line, spent the week end with friends in Blairmore.

We have just heard that several Scotchmen in Calgary have been bathing their feet in alum, so as to be able to get their shoes from the boys' department.

Mrs. F. V. Houghton and children, of Medicine Hat, who have been visiting for the past month with Mrs. Houghton's parents, Mr. and Mrs. J. R. Warner, returned home on Saturday last.

The Coleman Journal announces that the greater portion of the audience witnessing the Winnipeg-Blairmore game at the Blairmore arena came from points outside of Blairmore. Of course, and they all enjoy the opportunity of visiting the Pass Hub.

Local and General Items

The city of Fernie has decided to have the provincial police perform their police duties.

Then there was the Scotchman who got mad when he heard that the Irish lived in a free state.

Val remarked a few days ago: "The only good feature about side-lights on a man is they afford greater breeding space."

Anyway, a dentist is more honest than a good many parents. He never says: "This is going to hurt me more than it hurts you."

Madame Melba died at Sydney, N. S. W., on Monday, aged seventy-one. She was one of the purest and greatest sopranos grand opera had ever known.

An article appearing elsewhere in this issue from the pen of Bert Hultman, Langdon, Alberta, at one time connected with The Enterprise, is well worth reading.

During the week we were surprised to hear from George Cobley, former resident of Frank, in the good old days, who is now residing at 437-S. Elina Avenue, Redondo Beach, California.

The Blairmore Bearcats left for Glenora by auto this forenoon, where they play in the intermediate semifinals tonight. Percy Anderson and Frank Vejprava were left behind, but will be on deck here Saturday night.

Joseph D. Matheson, K. C., of Macleod, and G. M. Blackstock, K.C., of Medicine Hat, are mentioned among the material from which will be chosen a successor to the late Judge Taylor, of Edmonton. Here's wishing our old friend J. D. luck!

Charlie Graham's Rangers, at Lacombe, waiting to play either Glenora or Blairmore in the intermediate finals, have a record this season that is worth boasting about. The northerners won twenty-six games, drew one and lost one.

The many district friends of Mr. Ed. Royle, superintendent of Mine Rescue Car No. 1, will regret to learn that he is a patient in the Blairmore hospital, to which institution he had to be taken from a meeting he was attending at Bellevue on Friday night. From latest reports, he appears to be doing well and it is hoped will be around in a few days.

Some of the "drys" in Alberta, who do not know what it is to have all their money tied up in real property, might consider the plight of one hotel owner in another province, whose hotel was disposed of by bailiff's sale recently for rent, realizing an average of twenty dollars per room contents. Sheets were sold for ten cents each.

Word comes that Vine Krivsky, who several months ago left for Czechoslovakia in quest of a cure or relief for rheumatism, has come out of hospital, his doctors claiming they can do nothing for him. Mr. Krivsky for a number of years conducted successfully a meat market and sausage factory here, residing with his family over the store, formerly occupied as a Chinese laundry, on Dearborn Street.

It has been decided to take definite steps towards the incorporation of the Blairmore library, which under the untiring leadership of Rev. J. W. Smith, B.D., assisted by Mr. J. E. Gillis, has been brought up to a very high standard. At a meeting held during the week, the following provisional directors were appointed, who will assist in drafting the necessary bylaws and application for incorporation: Rev. J. W. Smith, B.D., J. E. Gillis, B.A., A. E. Ferguson, W. H. Chappell, R. Racette, B.A., E. A. Harper and G. A. Campbell. The matter of applying for incorporation has been placed with Mr. Gillis.

The Newfoundland legislature has been summoned to meet March 11th.

Lloyd McLeod, delegate to Russia, claims that "Russia is a working-man's country." Ya, ya!

The Pass Junior Cubs defeated High River Juniors to the tune of 9 to 1 last night at the local arena.

The Hillcrest Baseball Club will hold a dance in the Union hall at Hillcrest on the night of Monday, March the 9th.

Bishop Fallon, well known Canadian Roman Catholic divine, died at London, Ontario, on Sunday afternoon, after a brief illness, aged sixty-four.

Mr. and Mrs. John Hoggan, of Bellevue, will celebrate the golden anniversary of their wedding at the Oddfellows' hall, Bellevue, tomorrow (Friday) night.

In the list of flowers, Brown funeral, last week, the name Mrs. MacIn should have read Mrs. Martin, also W. Lord and family was inadvertently omitted.

George Beckett, a native of Newfoundland, has been sentenced to hang in Nova Scotia on April the 30th for the murder of Nicholas Marthos, a Glace Bay taxi driver, on September 22nd.

A very successful whist party was held last night at the home of Mrs. Andrew Petrie, Hillcrest. There were eight tables at play, the prize winners being: Mrs. Jack Penn, first; Mrs. H. O. Westrup, second; Mrs. W. Rose, consolation.

Following a series of robberies at Calgary, including the Union Milk Co. Palace theatre, Piggly Wiggly store, and a Carseland store, six arrests, including a sixteen-year-old boy and a woman have been made at Calgary during the week. Police believe they have the right gang, and have already recovered most of the stolen cash and goods.

The local Moose held a smoker following their regular meeting on Monday night, the occasion being to celebrate the transfer of membership of a number of candidates from Coleman. During the evening, the programme consisted of songs, speeches, readings, etc., the principal item being a silent talkie by Bill Fraser, entitled "My First Moose Hunt." We cannot here tell all about it, but the papers were full of it, and Bill has since been advertising for a mouth wash.

At the annual Orange convention at Calgary this week, the grand master, A. E. Williams, stated: "The time is opportune for protest against the spread of Communism in Canada." He declared that the Communist party of Alberta had disrupted miners' unions and was now exploiting the unemployed. "Will we stand idly by and let them obtain their objective, or will we, as real honest, loyal subjects of His Majesty the King, help to root them out and see that our government does its part in deporting the leaders of this movement?" he asked.

A "bo." taken off a train here a few days ago, was being escorted to Lethbridge via Greyhound bus on Tuesday, under charge of Constable Bailey, of the local detachment of the A.P.P. At a point this side of Lethbridge, he attempted to halt, and it took the combined efforts of the bus driver and police officer to subdue the man. Taken to Lethbridge, where he was to spend a time in jail, under observation, he was later ordered to return with the same officer to Blairmore to answer a further and more serious charge. The man appeared before Magistrate Gresham, charged with assaulting a police officer and attempting to escape custody, and was sentenced to a term of six months.

Only Fifty Per Cent

WHAT kind of management would you think it to accept only half your income? Yet many people are willing to get along with only half their rightful store of health.

MOTHER'S BREAD

is hundred per cent food—builds hundred per cent people—made from only the purest ingredients—you'll recognize it at once by its delicious flavor. Buy it once, you buy it always.
